

## Elementary Information and Resources for Preventing Homophobia and Gender Stereotypes

### Legal Cases Which Shaped Anti-homophobia Education in BC

- 1) Chamberlain vs. Surrey School Board (LGBT kids books in schools)  
“Tolerance is always age-appropriate, children cannot learn unless they are exposed to views that differ from those they are taught at home. Public Schools must be inclusive and secular, and when religious rights are in opposition, schools should err on the side of inclusion.”
- 2) Jubran vs. North Vancouver School Board (Straight teen sues over homophobic harassment)  
“School boards must respond effectively to allegations of harassment or bullying based on either “perceived” or “real” characteristics and must provide students with an educational environment that does not expose them to discriminatory harassment.”
- 3) Kempling vs. BC College of Teachers (Teacher opinions found to be discriminatory)  
Kempling’s homophobic letters to the editor of a local paper were discriminatory, unbecoming for his profession, and damaged the integrity of the public school system. He was suspended for 1 month.
- 4) Corren vs Ministry of Education (Teacher sues ministry over lack of LGBT content in schools)  
Creation of a new Social Justice 12 course, a K-12 social justice resource guide for teachers (*Making Space*), examine IRPs to reflect diversity and clarifies the “Alternative Delivery Policy.”

### Frequently Misunderstood Terminology

*Gender identity* – A person’s internal sense or feeling of being male, female, or a blend, which may not be the same as their birth gender.

*Heterosexism* – The assumption that everyone is heterosexual, that this sexual orientation is superior and the only natural orientation. Heterosexism is much more pervasive and subtle in our society than homophobia.

*Homophobia/Transphobia* – Ignorance, fear and mistrust of people who are LGBT, which is directly related to the silence and invisibility which has historically hidden them.

*Intersex* – A person who is born with a physical anatomy that does not seem to conform to distinctly male or female gender. In some cases it is not discovered until puberty.

*Queer* – Historically a negative term for homosexuality. More recently, many sexual minority people have reclaimed the word and use it instead of LGBT as a positive way to include all sexual minority people.

*Transgender/Gender Variant* – A person whose gender identity, appearance, expression and/or anatomy does not fit with conventional ideas of male or female.

*Two Spirited* – used by some Aboriginal people to identify themselves rather than LGBT. They traditionally held special status based on their unique abilities to understand both male and female perspectives.
